

BLESSING KROFEGHA

Tech Geek | Software Developer| Crypto-Enthusiast.

I build and deploy software's with great focus on stunning user interface, design, optimization and security.

TECHNICAL SKILLS

I design clean and user-friendly interfaces Figma and Photoshop.
I Have designed interfaces for Web, and Android.

As a Software Developer, I am well versed in client side technologies, HTML, CSS, JavaScript. I also know the ins and out javascript and can build almost anything, I make use of the following javascript frameworks for different purposes, I use React for my front-end in relation with Mobx, Redux for state management, I use Node.js and MongoDB , PostgreSQL for my database works. If there's a need to develop an Hybrid App, I make use of React- Native.

EXPERIENCE

Ingressive, Lagos, Nigeria —Campus Ambassador

MARCH 2018 - PRESENT

Ingressive Campus Ambassadors are individuals across various institutions all over Nigeria passionate about building the tech community on their campuses. They work together to build an active community of tech enthusiasts by doing what they can to create a positive experience for all members. This program is primarily sponsored by our partners e.g GitHub, Figma, hence, Ingressive Campus Ambassadors make use of their tools and encourage members of their communities to do the same as they build amazing projects leveraging on partner platforms.

leading the tech Eco-System in Campus.
